For the students:

The reading practice they need but with all students working at their own pace and marking their own work. Avoids the unnatural "whole class reading practice" situation and also the tedious "past paper" syndrome. Motivation and interest through modern, full-colour authentic texts and photos. Tasks suitable for the new GCSE.

For the teachers:

Provides masses of practical work and exam preparation but with **NO** preparation and **NO** marking. Great for when you are doing oral exams or have to occupy the class when working with individuals. Ideal for if you are ill: No dreaming up lesson plans at crack of dawn and piling up marking for when you return. The reassurance that the resources are compiled by one of the UK's top GCSE French and German course book writers.
